of Correction

Dear Sir:

Attached is form PTO/SB/44. The error sought to be corrected is the PTO's failure to include certain data on the front page of the patent.

The above-identified patent application issued on November 21, 2006. The application is based on PCT/NZ00/00019, which was filed on February 24, 2000. The originally filed declaration with the U.S. application includes a statement that the specification was attached *and* that the application was "described and claimed in International Application No. PCT/NZ00/00019 filed on February 24, 2000 ...which [the inventor has] reviewed and for which [the inventor solicited] a United States Patent." A priority acknowledgement was issued on August 24, 2006. Request is hereby made to correct the patent cover page to reflect the filing of the PCT application, and the international filing date. The Applicant hereby requests that the corrected patent be reprinted. The Applicant contends that there is no fee required for the request.

The Commissioner is authorized to charge any fees which may be due in connection
